SEASON END SALE

Sound business practice makes it imperative that we clear our stocks of some items before the season is too late; if you have bought some of these plants earlier in the season you know what quality to expect, and we welcome this opportunity of shipping to new customers.

Plants not listed in our Booklet of "Worthwhile Flowering Shrubs:"

IBOTA PRIVET—Very hardy, with spreading, curving branches; white flowers in June, followed by black berries. 18-24 inches, 25 cents each; \$2.50 dozen.

ENGLISH PRIVET—Very hardy, narrow leaves of grayish green. Will stand dense shade and tree roots. 24-36 inches, 35 cents each; \$3.50 dozen.

GARLAND SPIREA—Similar to thunbergi, but more profuse flowering and has wider leaves. 12 to 18 inches, 35 cents each; \$3.50 dozen.

TAMARIX—An evergreen like shrub with light feathery foliage, and long slender racemes of pinkish flowers. Very beautiful with cut flowers. 3 to 4 feet, 50 cents each; \$5.00 dozen.

Many of the above are very suitable for a large screen or hedge effect. Have your neighbor go in with you in making up your order, and which must be for \$2.00 or more to get this benefit.

We can ship dormant plants until JUNE 1st, but suggest that you ACT QUICKLY.
